

BETHANY CHILDRENS HOME NEPAL

Nepal Project Manager: Mr. Bam Bdr. Tamang (Babin Lama) Faith Foundation Nepal, Nilkantha-5, Bagaltar, Dhading, Nepal

2010 has been an exciting year with the progress of our own home building. Thankfully the weather has been kind to us and not held back the builders. Our Christian builder Arron and his team have done a great job. According to our friend Laurence who visited from Salisbury, England "it is a superb building in a really beautiful location, with views of mountains, green hillsides and growing rice. The air is fresh and a wonderful place for children to grow up".

Lawrence enjoyed his stay very much: helping our children with homework, comparing notes with Babin, and he rates Gita as the Best Cook in Nepal! He was asked to speak in church and rose to the challenge, visited the local hospital in Dhading and experienced the friendliness and generous spirit of the Nepalese people.

At home the Fundraising Team have worked hard in 2010 and with a few donations from supporters and our regular sponsors we are managing to support the family as well as raising money for the building work. At this moment we are only £12.500 short of our target.

There are already 20 fundraising dates arranged for 2011 with more ideas in the pipeline.... We have also made contact with the Nepalese community in Wolverhampton and are looking forward to where that leads us.

Our children are growing and maturing - looking healthy and more handsome as they do so! They are doing well at their studies and show many different talents and personality traits which we wish to encourage.

When the time comes we intend to support them in job training or higher education according to their interests and abilities. We feel that several of them have leadership qualities which we hope will benefit their country.

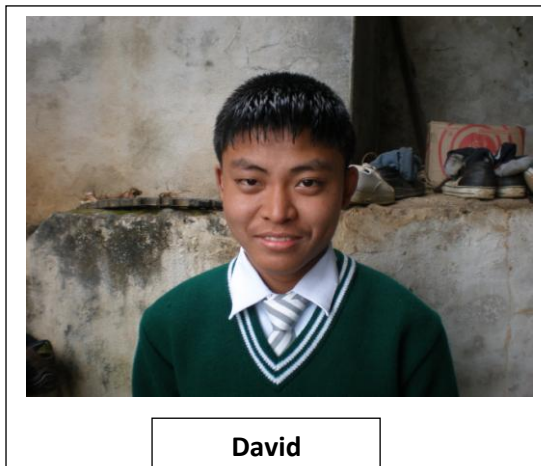

We shall be looking for more sponsorship in the future as we wish to increase the number of children. We ask you to pray with us that God will continue to help us in this life-changing work.
